The Bengaluru Recycling Habba

The Solid Waste Management Round Table Bengaluru (SWMRT), supported by the Karnataka State Pollution Control Board (KSPCB), BBMP and the Karnataka High Court Legal Services Committee organized the first ever Bengaluru Recycling Habba in November 2011

There were several events held all over the city to highlight the importance of the three R's – reduce, reuse, recycle. The main aim of the Habba was to urge the people of Bangalore about the urgency of managing their waste

The Recyclathon Awards

The Recyclathon Awards was launched in 2011 with a mission to encourage the spirit of recycling in the city. Conceived and conceptualized Radio Active CR 90.4 MHz, and supported by the Karnataka State Pollution Control Board, this program is part of the Bengaluru Recycling Habba, conducted by the Solid Waste Management Roundtable, Bangalore.

This is a friendly competition to promote community waste reduction activities and encourage recycling.

The Recyclathon Awards recognizes outstanding community, school/college, institution, NGO, business, and public office recycling programs across the city, in addition to acknowledging waste-pickers and individual contribution. We understand that each program vary in terms of reach, however we believe that they stand testimony to the on-going commitment of the residents in Bangalore
